

# Andrew Harvey

Syracuse, NY | aharve10@syr.edu | [LinkedIn](#) | [GitHub](#)

## EDUCATION

### Syracuse University

Syracuse, NY | Aug 2025 - May 2027

*Bachelor of Science in Applied Data Science*

- GPA: 3.1 | Concentration in Data Science and Analytics
- Relevant coursework: Programming Techniques for Data Analytics, Database Management, Interacting with AI, Statistics

### Marion Military Institute

Marion, AL | Aug 2023 - May 2025

*Associate of Science, Cum Laude*

- GPA: 3.5 | Recipient of the Future American Warrior Award
- Commissioned as a Second Lieutenant through the Early Commissioning Program

## EXPERIENCE

### Second Lieutenant | B-Troop, 101st Cavalry, Army National Guard

| Oct 2025 - Present

- Lead and manage soldiers in a cavalry troop, coordinating training schedules and operational readiness
- Plan and execute tactical operations during monthly drill weekends and annual training exercises
- Develop leadership, logistics, and decision-making skills under high-pressure environments

### Line Cook | Coppertop Tavern

Syracuse, NY | Aug 2025 - Present

- Prepare and execute menu items in a fast-paced, high-volume kitchen environment
- Coordinate with front-of-house staff to manage timing and quality of orders during peak service

### Line Cook | Tommy Bahama Restaurant

| Aug 2022 - May 2023

- Maintained food quality and consistency across a diverse menu in an upscale dining setting
- Managed prep work and station setup to support efficient kitchen operations

### Line Cook | Chili's Grill & Bar

| Jun 2021 - Aug 2022

- Operated multiple stations during high-volume shifts, maintaining speed and accuracy
- Trained new kitchen staff on food preparation procedures and safety standards

## PROJECTS

### Weather Dashboard | Python, Streamlit, REST APIs

- Built a Streamlit web app that geocodes user-entered locations and displays real-time weather data
- Integrated Open-Meteo API with secure key handling, unit conversions, and responsive UI design

### Pivot Table Dashboard | Python, Streamlit, Pandas, NumPy

- Developed an interactive dashboard for exploring a 1,500-row sales dataset with dynamic pivot tables
- Implemented sidebar filtering, selectable aggregation functions, and auto-updating bar and line charts

### VSA Outcomes Visualization | Python, Pandas, Matplotlib, Chart.js

- Analyzed financial aid, graduation rates, and SAT scores across 3,798 U.S. institutions
- Created interactive visualizations including scatter plots, bar charts, and classification breakdowns

## SKILLS

**Languages & Tools:** Python, SQL, HTML/CSS, Git, VS Code, Jupyter Notebook

**Libraries & Frameworks:** Pandas, NumPy, Matplotlib, Streamlit, Scikit-learn (beginner)

**Data & Analysis:** Data visualization, data cleaning, exploratory data analysis, pivot tables, REST APIs

**Certifications:** Microsoft Excel Certified

## ORGANIZATIONS

**Phi Theta Kappa** - International Honor Society for Two-Year Colleges

**Kappa Theta Pi** - Professional Technology Fraternity
